HORNBY BAY MINERAL EXPLORATION LTD.
(FORMALLY UNOR INC.)
(A Development Stage Company)
Notes to the Consolidated Financial Statements
June 30, 2010

1. BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of the Company have been prepared by, and are the responsibility of, the Company's management.

The Company's independent auditor has not performed a review of these interim consolidated financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an auditor.

These interim consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles ("GAAP") and follow the same accounting policies and methods of application as the audited consolidated financial statements for the year ended March 31, 2010, except as noted below. They do not include all of the information and disclosures required by Canadian GAAP for annual consolidated financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these interim consolidated financial statements. Operating results for the period ended June 30, 2010 are not necessarily indicative of the results that may be expected for the full year ended March 31, 2011. For further information, see the Company's consolidated financial statements including the notes thereto for the year ended March 31, 2010.

2. NATURE OF OPERATIONS AND GOING CONCERN

Hornby Bay Mineral Exploration Ltd. (the "Company") is a development stage company as defined by the Canadian Institute of Chartered Accountants (the "CICA") Accounting Guideline 11 and currently has interests in exploration and development properties in Canada. Substantially all of the Company's efforts are devoted to financing and developing these properties. There has been no determination whether the Company's interests in mineral properties contain mineral reserves which are economically recoverable.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements.

These consolidated financial statements have been prepared in accordance with Canadian GAAP applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying consolidated financial statements. Such adjustments could be material.

The Company has a need for equity capital and financing in order to explore and develop its properties and for working capital requirements. Because of limited working capital and continuing operating losses, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing. It is not possible to predict whether financing efforts will be successful.

3. FUTURE ACCOUNTING PRONOUNCEMENTS

International Financial Reporting Standards ("IFRS")

In January 2006, the CICA's Accounting Standards Board ("AcSB") formally adopted the strategy of replacing Canadian GAAP with International Financial Reporting Standards ("IFRS") for Canadian enterprises with public accountability. On February 13, 2008, the AcSB confirmed that the use of IFRS would be required in 2011 for publicly accountable profit-oriented enterprises. For these entities, IFRS will be required for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The Company will be required to have prepared, in time for its first quarter of fiscal 2011 filing, comparative financial statements in accordance with IFRS for the three months ended June 30, 2010. The Company has begun assessing the impact of the adoption of IFRS and has purchased a computer program to assist management in completing the scoping and planning phase of its changeover plan and has commenced the detailed assessment phase. The Company believes that the financial reporting impact of the transition to IFRS will not be substantial.

Business Combinations, Consolidated Financial Statements and Non-Controlling Interests

The CICA issued three new accounting standards in January 2009: Section 1582, Business Combinations, Section 1601, Consolidated Financial Statements and Section 1602, Non-Controlling Interests. These new standards will be effective for fiscal years beginning on or after January 1, 2011. Section 1582 replaces Section 1581 and establishes standards for the accounting for a business combination. It provides the Canadian equivalent to IFRS 3 - Business Combinations. The section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011. Sections 1601 and 1602 together replace Section 1600, Consolidated Financial Statements. Section 1601, establishes standards for the preparation of consolidated financial statements. Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS IAS 27 - Consolidated and Separate Financial Statements. The Company is currently in the process of evaluating the impact of these standards.

4. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The capital of the Company consists of capital stock and contributed surplus. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

Several properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the three months ended June 30, 2010. The Company and its subsidiaries are not subject to externally imposed capital requirements.

(FORMALLY UNOR INC.)
(A Development Stage Company)
Notes to the Consolidated Financial Statements
June 30, 2010

5. FINANCIAL RISK FACTORS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no changes in the risks, objectives, policies or procedures from the previous year.

Credit risk

The Company's credit risk is primarily attributable to cash and cash equivalents. The Company has no significant concentration of credit risk arising from operations. Cash and cash equivalents consist of bank deposits which have been invested with or purchased from reputable financial institutions, from which management believes the risk of loss to be remote.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2010, the Company had a cash and cash equivalents balance of \$3,296 (March 31, 2010 - \$5,4707) to settle current liabilities of \$357,177 (March 31, 2010 - \$258,643). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Market risk

(a) Interest rate risk

The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The promissory note is not subject to interest rate risk as it has a fixed rate of interest.

(b) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. From time to time, the Company funds certain operations, exploration and administrative expenses in US dollars on a cash call basis using US dollar currency converted from its Canadian dollar bank accounts held in Canada. Management believes the foreign exchange risk derived from currency conversions is negligible and therefore does not hedge its foreign exchange risk. The Company does not hold significant balances in foreign currencies to give rise to exposure to foreign exchange risk.

(c) Price risk

The Company is exposed to price risk with respect to commodity prices. Changes in commodity prices will impact the economics of development of the Company's mineral properties. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company. Price risk is remote since the Company is not a revenue producing entity.

Fair value

The Company has designated its cash and cash equivalents as held-for-trading, which are measured at fair value. Amounts receivable and GST receivable are classified as loans and receivables, which are measured at amortized cost. Accounts payable and accruals and promissory note are classified as other financial liabilities, which are measured at amortized cost.

Fair value estimates are made at the balance sheet date, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties in significant matters of judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect these estimates. The carrying amounts for cash and cash equivalents, amounts receivable, GST receivable, promissory note and accounts payable and accruals on the balance sheet approximate fair value because of the limited term of the instruments.

At June 30, 2010, the Company's financial instruments that are carried at fair value, consisting of cash and cash equivalents have been classified as level 1 within the fair value hierarchy.

6. MINERAL PROPERTIES

(a) COPPERMINE RIVER, NUNAVUT

The Company holds a 100% interest in 40 mineral leases and 16 mineral claims in the Coppermine River area of Nunavut. The 40 leases are subject to a 1% net smelter royalty and/or a 1% gross diamond royalty to a maximum of \$10,000,000. Cumulative exploration and development expenditures made by the Company on this project as at June 30, 2010 totaled \$22,704,948 (March 31, 2010 – \$22,642,513).

(b) UNAD JV, NUNAVUT

Pursuant to agreements dated September 30, 2006 the Company holds a 50% interest in certain mineral claims in the Coppermine River area of Nunavut. (See Note 14). Cumulative exploration and development expenditures made by the Company on this project as at June 30, 2010 totaled \$772,313 (March 31, 2010 – \$772,313).

(g) ONTARIO GOLD PROPERTIES

The Company holds a 100% interest in five gold leases near Timmins, Ontario. Cumulative exploration and development expenditures made by the Company on this project as at June 30, 2010 totaled \$125,570 (March 31, 2010 – \$125,570).

(h) B.C. PROPERTIES

The Company holds a 100% interest in four Crown grants in the Camsell and Similkameen area of British Columbia and a 5% net smelter royalty interest on certain parts of the Similkameen Copper Mine. Cumulative exploration and development expenditures made by the Company on this project as at June 30, 2010 totaled \$37,859 (March 31, 2010 – \$37,755).

(FORMALLY UNOR INC.)
(A Development Stage Company)
Notes to the Consolidated Financial Statements
June 30, 2010

7. CAPITAL STOCK (Continued)

On April 6, 2010 the Company consolidated its shares on a 1 for 3 basis. All references to common shares, per share amounts, warrants, and options for all periods presented have been retroactively restated to reflect this consolidation unless otherwise stated.

(ii) **Warrants**

As of June 30, 2010 there are no warrants issued and outstanding.

(iii) **Options**

The Company's Stock Option Plan (the "Plan") provides for the granting of stock options to directors, officers, employees and consultants of the Company. Share options are granted for a term not to exceed five years at exercise prices not less than the closing sale price of the shares on the TSX Venture Exchange on the trading day immediately preceding the date the options are granted, and are not transferrable. The Plan is administered by the Board of Directors, which determines individual eligibility under the Plan, number of shares reserved for optioning to each individual (not to exceed 5% of issued and outstanding shares to any one individual) and the vesting period. The maximum number of shares of the Company that are issuable pursuant to the Plan is limited to 10% of the issued and outstanding common shares.

Options Transactions

	Number	Weighted average exercise price per share
	#	\$
Options outstanding, March 31, 2010	1,765,000	0.81
Expired	<u>(1,276,667)</u>	0.82
Options outstanding, June 30, 2010	<u>488,333</u>	0.87

On April 6, 2010, following a 1 for 3 consolidation of the Company's common shares, the number of options outstanding was reduced by a factor of 3, and the exercise price of the options was multiplied by a factor of 3. All references to common shares, per share amounts, warrants, and options for all periods presented have been retroactively restated to reflect this consolidation unless otherwise stated.

Options to purchase common shares outstanding at June 30, 2010 carry exercise prices and remaining terms to maturity as follows:

Number of Options	Options Exercisable	Exercise Price	Expiry Date
#	#	\$	
50,000	50,000	1.80	13-Jul-10
66,667	66,667	1.14	05-Jan-11
75,000	75,000	1.71	06-Mar-12
113,333	113,333	0.66	19-Feb-13
183,333	183,333	0.30	16-Jun-14
<u>488,333</u>	<u>488,333</u>	<u>0.87</u>	

HORNBY BAY MINERAL EXPLORATION LTD.
(FORMALLY UNOR INC.)
(A Development Stage Company)
Notes to the Consolidated Financial Statements
June 30, 2010

8. CONTRIBUTED SURPLUS

There were no Contributed surplus transactions for the three months ended June 30, 2010.

9. COMMITMENTS AND CONTINGENCIES

The Company has been named a defendant in legal proceedings brought by a former officer of the Company. The former officer is claiming approximately \$30,000 in settlement of the promissory note (see Note 13) and approximately \$170,000 damages for breach of contract.

The Company has accrued \$30,000 in these financial statements relating to the promissory note. The Company believes that the claims for damages are without merit and plans to vigorously defend itself. As the outcome of these proceedings cannot be reasonably determined, no further amounts are recorded in these financial statements.

13. RELATED PARTY TRANSACTIONS

During the year ended March 31, 2010 a former officer of the Company loaned the Company \$30,000 in the form of an unsecured promissory note bearing interest at 12% per annum. The promissory note is due on demand. As at June 30, 2010, no principal or interest had been repaid relating to this promissory note. See note 12.

Included in accounts payable is an amount owing to a shareholder of \$255,347. This amount is due on demand, unsecured, non-interest bearing with no fixed terms of repayment. (See Note 15).

15. SUBSEQUENT EVENT

Subsequent to June 30, 2010, a shareholder of the Company advanced the Company \$905,856. The advance is due on demand, unsecured, non-interest bearing with no fixed terms of repayment.
